Figure 1. Problems fixed in 4.2

Changes in 4.2

The following changes were made:

1. Faster start-up
2. New “quiet” start option
3. Fixes for the problems listed in Figure 1

This release has 3 changes (see footnote [1]).

> Important: Back up the configuration before you upgrade.

Configuration

The configuration file now accepts these keywords:

timeout Seconds to wait for a client (default 30).

quiet Suppresses the start-up banner.

An example:

```
server  main
  timeout 45
  quiet
```

Platforms

Supported platforms:

z/OS

[1] Measured on a cold system.

customer

z/VM

Linux on Z

Note: All platforms need the latest service level.
